Vision: The Schindler Drive

He started his factory in Nazi-occupied Krakow, Poland to take advantage of slave labor from the Jews (who didn't earn money for their work - the wages went to the Third Reich.)

However, because of key people around him (including his factory accountant Itzhak Stern), his motivation became fueled more by altruism than capitalism. His 1,200 factory workers were saved from death by being on Schindler's List. His name was Oscar Schindler and he was a leader driven by a Vision to set as many Jews free as he could from the Nazis.

You are a leader. What Vision drives you?
